

Rx

KL GLOW[®]

Licorice extract 1 % + Kojic acid Dipalmitate 2 %
Arbutin 2% + Tetrahydro curcumin 0.25%+
Hyaluronic acid 0.1%+ Niacinamide 4%+
Vitamin E Acetate 0.5%

30 gms

Licorice Extract

- ♦ Lightens skin by inhibiting Tyrosinase activity or dispersing melanin thus, downregulating Hyperpigmentation process
- ♦ Anti-inflammatory & anti-oxidant properties synergistically boost skin even toning properties

Kojic Acid Dipalmitate

- ♦ Inhibits tyrosinase activity to provide protection against sun spots & age spots
- ♦ More stable than kojic Acid with respect to colour changes occurring over time

Arbutin

- ♦ Safe & effective in tackling hyperpigmentation
- ♦ Acts by inhibiting Tyrosinase activity

Tetrahydrocurcumin

- ♦ Potent Tyrosinase inhibition prevents excess melanin formation
- ♦ Works as an effective Bioprotectant by preventing formation & scavenging free radicals
- ♦ Anti-Inflammatory actions offer topical protection against UV-induced inflammation

Hyaluronic Acid

- ♦ Superlative moisturization provides skin perfecting benefits
- ♦ Reduces appearance of fine lines & wrinkles to provide a firm, youthful looking skin

Niacinamide

- ♦ Evens out of skin tone by reducing melanosome transfer from melanocytes to keratinocytes
- ♦ Reduces Trans Epidermal water loss (TEWL) to hydrate & protect skin barrier

Vitamin E Acetate:

- ♦ Confers splendid anti-oxidant activity
- ♦ Lends photo protection by minimizing solar damage to skin
